SUPPORTI IN PLASTICA PER FLAP DISC

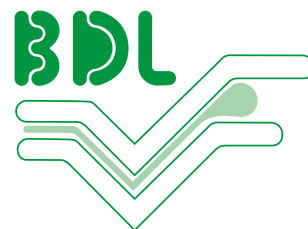

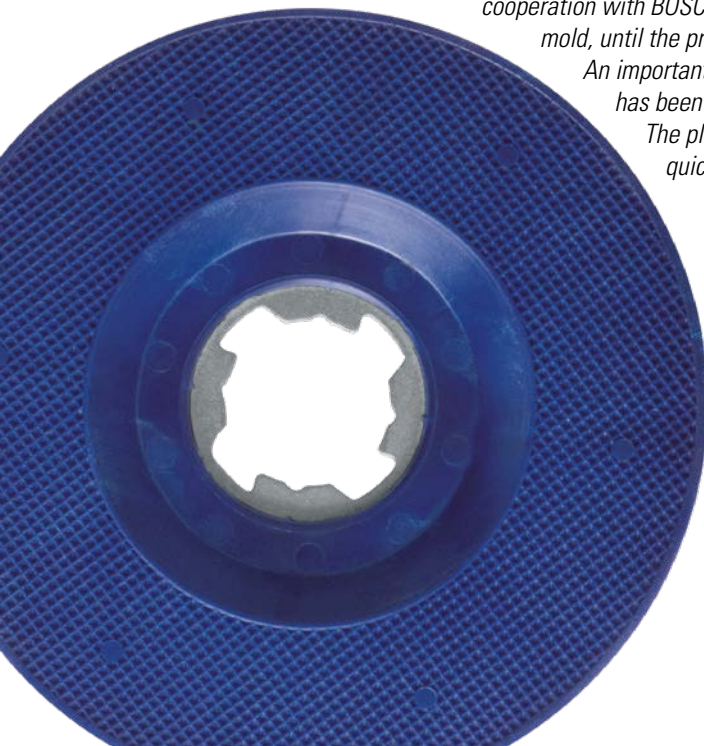

I supporti per flap disc X-LOCK sono il risultato di un progetto completo sviluppato in collaborazione con BOSCH, partito dalla progettazione, alla realizzazione degli stampi sino alla produzione del supporto finito. Un riconoscimento importante all'innovativo know-how di BDL che da anni investe nel settore. Il supporto in plastica è compatibile con il sistema di aggancio rapido X-LOCK, brevettato da BOSCH.

PLASTIC BACKING FOR FLAP DISCS

X-LOCK backing pads for flap disc are the result of a complete project, developed in cooperation with BOSCH, started from the design, to the realization of the mold, until the production of the finished item.

An important recognition to BDL's innovative know-how, which has been investing in the sector for years.

The plastic backing pad is compatible with the X-LOCK quick hooking system, patented by BOSCH.
